

ALUMNI WORDS

IIHMR has been the first step of my career ladder. The institute is a great place to learn management skills in the area of healthcare. It made me realize my potential and utilize it to the best. The exposure provided to the students is really commendable.

The learned and highly experienced faculty is the biggest asset of this institute who has always been there to handhold and has imbibed the best professional knowledge.

I am grateful to the institute and the faculty for whatever and wherever I am.

Nidhi

Knowledge Management Associate, ZS Associates

IIHMR has provided me a platform to realize my potential & to make the best use of it. All of my professors were exceptional & gave me the best guidance possible. I am thankful to IIHMR for whatever & wherever I am today.

Suvendu Shekhar Panda
Thumbay Group, UAE

First of all I would like to express my thanks to all the faculty members for selecting me to pursue PGDHM from IIHMR. Studying in this prestigious institute gave me a platform to nourish my managerial skills. Further, without the guidance of my teachers, it would not have been possible for me to start my career as a Business Analyst in Dell. They helped in taking the right decision. I am now proudly acting as a bridge between the doctors and the engineers. Studying in IIHMR gave a paradigm shift to my career. Thank you IIHMR.

Mandeep Singh
Business Analyst, DELL

It always fills my heart with immense pleasure, when I find myself standing-out of the crowd with being recognized an IIHMR Alumnus. I can rather say that the Institute has actually paved my path to success.

Getting trained in the various aspects of Healthcare management, and that too from such a vividly qualified and highly experienced set of faculty here, helped me shape my goals and opened so many new avenues and career prospects to pursue.

Varun Kumar
District Officer Nutrition, Nutrition TSU, Care India, Bihar

I took an academic walk down the corridors of IIHMR New Delhi. Embedded with an aspiration to build a career in the field of public health. It was a complete hand-holding, a blessing, which I received. Persistent support from the faculties for publication, trainings and conference participation during the academic stint was something I think flourished and responsible for current professional standing. I strongly believe that the inputs at the right time and rightly timed helped me built my career. IIHMR Delhi has that strong transdisciplinary and network platform which every graduate carries and can foster to give themselves a systematic, correctly designed and timely career progression.

Abhimanyu Singh Chauhan
Qualitative Researcher
Public Health Foundation of India & PhD scholar, Institute of tropical Medicine, Belgium
