**Career Prospect &
Opportunities in Health
Information Technology
Management, Health
Management and Hospital
Management**

**30th June, 2017 & 29th July, 2017
10:30 AM - 12:30 PM at IIHMR, Delhi**

With the concept of healthcare going beyond hospitals, the health care industry in India has witnessed remarkable growth in the past few years. The Indian healthcare industry is growing rapidly at a rate of around 17% every year. No survey will tell you otherwise; in fact few like to call it as recession free industry. IIHMR has been the pioneer institute, in catering to this need. Our parent society has been into healthcare capacity building since 1984. That's three decades of excellence. Looking for a career in healthcare industry? Want to know more? We invite Students/Professionals having Bachelor's Degree, or who are in their final year (i.e. Graduating in 2017), from various streams such as Medical, Engineering, Commerce, Business Administration, Science, Arts, Social Science, Humanities (who want to build their career in healthcare industry), for a free Seminar. Since the scope is immense, the fields are diversified.

For Registration, please send the following details:-

Name, Age, Gender, Educational Background, Work Experience, Email, Mobile Number.
